

## Environmental Policy Statement: 2022

Revised 13/04/2022

Serpecon Ltd has been trading since 1989 and is one of the UK's leading suppliers of shafted and shaftless screw conveyors and material handling equipment for the Wastewater, Recycling, Municipal Waste & Agricultural industries.

We recently re-located our Manufacturing, Assembly & Sales Offices to our new Headquarters in Havant, near Portsmouth (Hampshire) which offers us great transport links for delivery to the UK and Europe.

Serpecon Ltd are also pleased to offer design, manufacture, and installation services for both fixed and mobile equipment whilst providing repair and maintenance services on an ad-hoc or contract basis.

Our reputation has been built on manufacturing a high-quality product, working flexibly and collaboratively with customers, and providing proactive and preventative support services.

The Board of Directors regards the Environmental Policy equal in its importance to other policies and is committed to action the following:

1. Continually improve and monitor the company's environmental performance
2. Continually monitor and manage the company's environmental impacts
3. Maintain compliance with relevant environmental legislation
4. Actively promote recycling both internally and amongst its customers and suppliers
5. Ensure our product range minimizes the environmental impact of both production and distribution.
6. Ensure all employees have a level of awareness and knowledge to be able to comply with the Policy and contribute to improving environmental performance
7. Review this statement and associated policy annually, making any appropriate revisions
